

Instructions on Reading ePub Books with the Google Chrome Radium App

You must use Google Chrome as your browser and you must have a Google account in order to download the app. Click [here](#) for information about installing free apps.

Step 1: Installing the Radium App

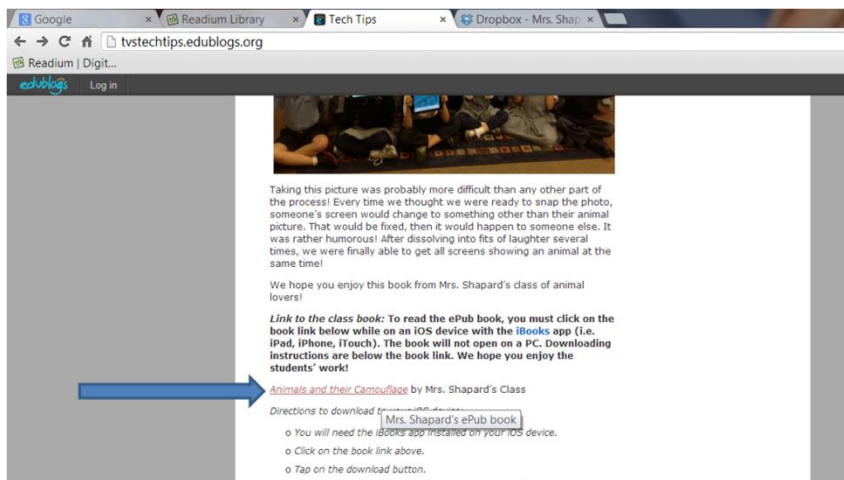

- Visit the [Chrome Web store](#) and search for **Radium**.

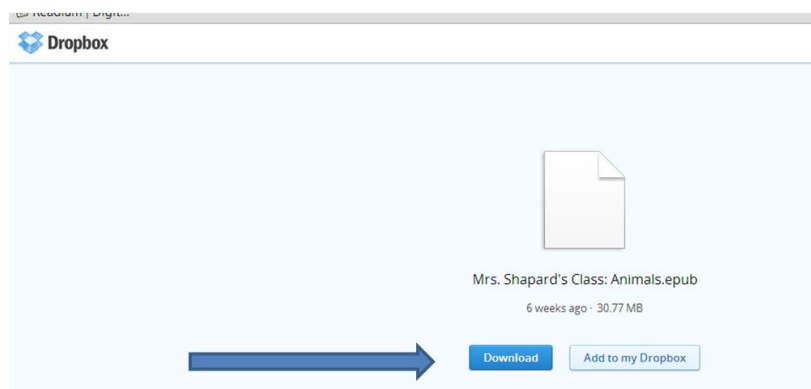

- After you've signed in, you can add the app to Chrome.

Step 2: Downloading ePub Books for the Radium App

- Click on the link of the book you wish to download.

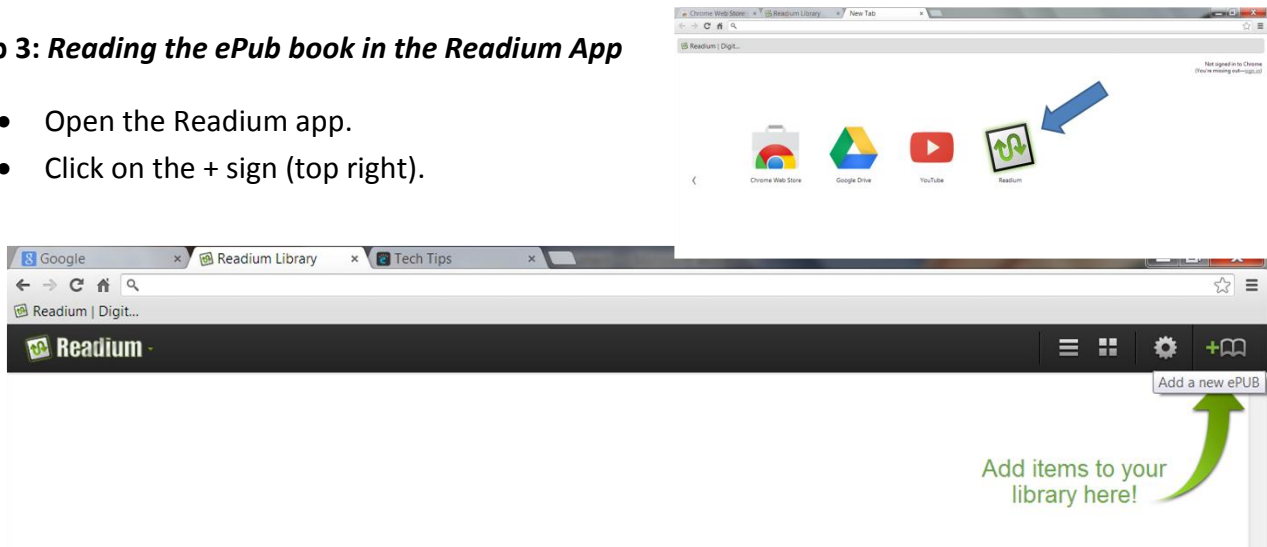

- Choose download.

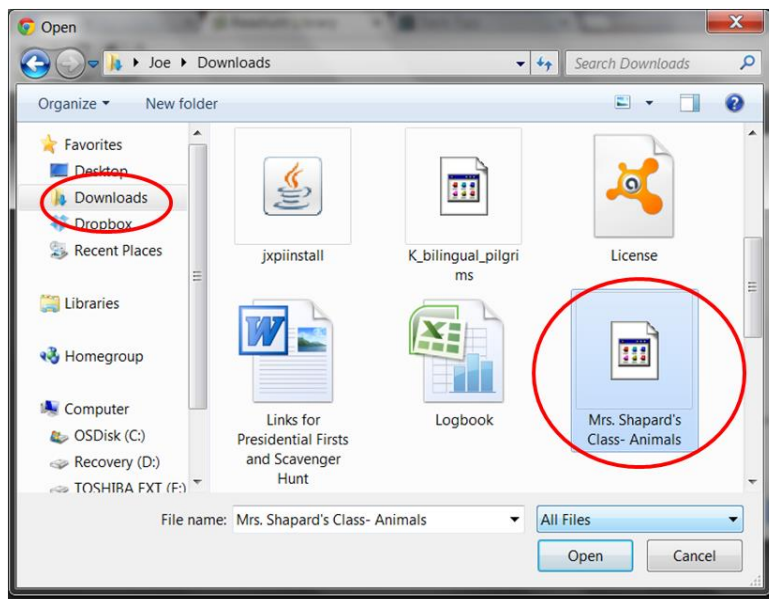

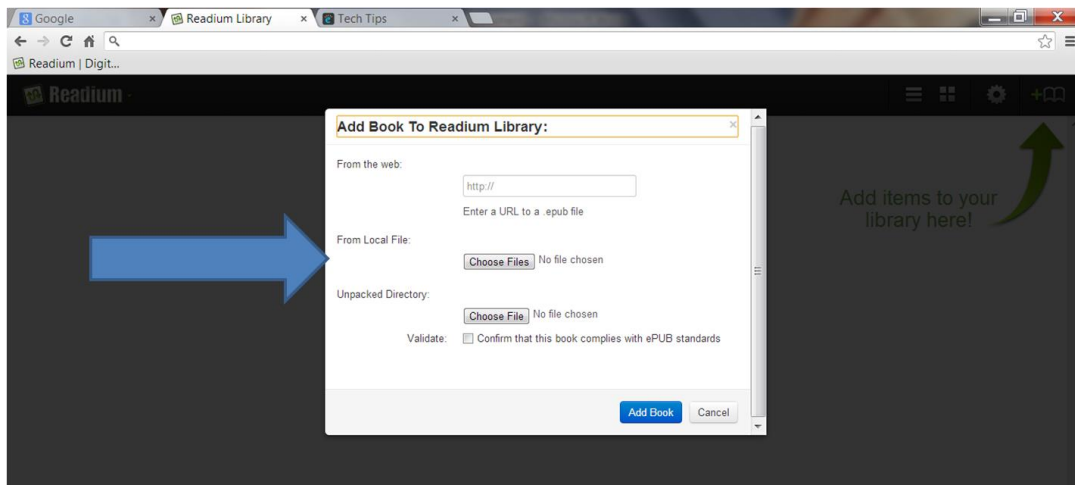

Step 3: Reading the ePub book in the Radium App

- Open the Radium app.
- Click on the + sign (top right).

- Find where you saved the file (most likely the Downloads folder). Choose the file and click on open.

- The file will upload to Radium. The book can now be read on your computer. Voice recordings can be heard as well.
